**How risky is it?**

The value of the Fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

**Risk rating**

1832 Asset Management L.P. has rated this Fund's risk to be **medium**.

This rating considers how much the Fund's returns have changed from year to year. It doesn't tell you how volatile the Fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the Fund's returns, see the Risk section of the Fund's simplified prospectus.

**No guarantees**

Like most mutual funds, this Fund doesn't have any guarantees. You may not get back the amount of money you invest.

## A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan, such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

## How much does it cost?

The following tables show the fees and expenses you could pay to own and sell Series V units of the Fund. The fees and expenses are different for each series. Ask your representative about these other series to see if they are suitable for you.

### 1. Sales charges

New purchases and reclassifications into Series V units are no longer permitted. Switches into Series V units are permitted among the Marquis Institutional Solutions Portfolios.

<b>Low load sales charge</b>	<i>If you redeem:</i> During first 18 months, 3.0% Between 19 and 36 months, 2.0% Thereafter, nil	\$0 to \$30 on every \$1,000 you redeem	If you hold the Fund on a low load sales charge option, a sales charge may be payable by you depending on when you redeem, switch or reclassify your units. If you switch your units, the new securities issued to you will continue to be subject to the same deferred sales charge. The charge is based on the net asset value of those securities at the time of redemption and is deducted from the amount you redeem.  Under the annual free redemption feature, each calendar year you may redeem up to 10% of your investment without paying the low load sales charge.
