Total number of investments 38

How risky is it?

The value of the Fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

1832 Asset Management L.P. has rated this Fund's risk to be **medium**.

This rating considers how much the Fund's returns have changed from year to year. It doesn't tell you how volatile the Fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the Fund's returns, see the Risk section of the Fund's simplified prospectus.

No guarantees

Like most mutual funds, this Fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the Fund performed?

This section tells you how the Series G units of the Fund have performed over the past 6 calendar years. Returns are after expenses have been deducted. These expenses reduce the Fund's returns.

Year-by-year returns

This chart shows how the Series G units of the Fund have performed in each of the past 6 calendar years. The range of returns and change from year to year can help you assess how risky the Fund has been in the past. It does not tell you how the Fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for the Series G units of the Fund in a 3-month period over the past 6 years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	8.9%	September 30, 2013	Your investment would rise to \$1,089
Worst return	(10.5)%	June 30, 2012	Your investment would drop to \$895

Average return

A person who invested \$1,000 in Series G units of the Fund when it was created now has \$1,211. This works out to be an annual compound return of 2.5%.

Who is this Fund for?

Investors who are ...

- seeking the capital growth potential of investments in equities of Canadian businesses;
- able to accept some variability of returns and are investing for the long term.

Series G units are intended for investors resident in a province or territory of Canada in which the HST does not apply.

! Do not invest in this Fund if you cannot accept the volatility of equity markets.

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan, such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series G units of the Fund. The fees and expenses, including any commissions, can vary among series of the Fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales charges

You have to choose a sales charge option when you switch into the Fund from Series G of a different Fund. Ask your representative about the pros and cons of each option.

Sales charge option	What you pay		How it works
	In per cent (%)	In dollars (\$)	
Deferred sales charge	<i>If you redeem:</i> During 1st year, 6.0% During 2nd year, 5.5% During 3rd year, 5.0% During 4th year, 4.5% During 5th year, 4.0% During 6th year, 3.0% Thereafter, nil	\$0 to \$60 on every \$1,000 you redeem	If you choose a deferred sales charge option when you switch into the Fund from a series previously acquired on a deferred sales charge basis, a sales charge may be payable by you depending on when you redeem or switch your units. If you switch your units, the new securities issued to you will continue to be subject to the same deferred sales charge. The charge is based on the net asset value of those securities at the time of redemption and is deducted from the amount you redeem. Any deferred sales charge you pay goes to 1832 Asset Management L.P. You will not pay a charge unless you redeem your units within six years of buying them. Under the annual free redemption feature, each calendar year you may redeem up to 10% of your investment without paying the deferred sales charge.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy units of the Fund within two business days after you receive a copy of the Fund's simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, annual information form, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.
